End User License Agreement for ComponentSpace Software

This End-User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and ComponentSpace Pty Ltd ("ComponentSpace ") for the ComponentSpace software product accompanying this EULA, which includes computer software and may include associated media, printed materials, and online or electronic documentation ("SOFTWARE PRODUCT"). By installing, copying, or otherwise using the SOFTWARE PRODUCT, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, do not install, copy, or use the SOFTWARE PRODUCT.

1. GRANT OF LICENSE

In consideration of your payment of applicable license fees, ComponentSpace hereby grants to you, and you accept, a nonexclusive, nontransferable license for a SINGLE SOFTWARE DEVELOPER to install, use, and display a single copy of the SOFTWARE PRODUCT. You may move the SOFTWARE PRODUCT from one computer to another, and the SOFTWARE PRODUCT may be resident on more than one computer at any one time as long as it is only for the use of a SINGLE SOFTWARE DEVELOPER.

If you purchase a MULTI-DEVELOPER license for the SOFTWARE PRODUCT, then the EULA extends to include the number of software developers specified by the license.

If you purchase a SITE license for the SOFTWARE PRODUCT, then the EULA extends to include all software developers within the purchasing organization and located at the same business address or who from time to time telecommute from home or other locations external to the business address.

If you purchase an ENTERPRISE license for the SOFTWARE PRODUCT, then the EULA extends to include all software developers within the purchasing organization and regardless of their location.

You may use the SOFTWARE PRODUCT for the purpose of developing your own software applications, in accordance with the terms of this EULA. A copy of the SOFTWARE PRODUCT may be made for archival or backup purposes as long as it contains all the original SOFTWARE PRODUCT proprietary notices. You may not sublicense, rent, distribute, lease or otherwise transfer or assign any or all of your rights in the SOFTWARE PRODUCT. You may use the SOFTWARE PRODUCT solely in its original form, and may not change, alter or modify the SOFTWARE PRODUCT, translate, reverse assemble, reverse compile, disassemble, or in any way reverse engineer the SOFTWARE PRODUCT. If bug fixes, enhancements, or updates to the SOFTWARE PRODUCT or new versions of the SOFTWARE PRODUCT are made available to and are obtained by you, then they shall become part of the SOFTWARE PRODUCT and governed by the terms of this EULA. ComponentSpace reserves all rights not expressly granted to you in this EULA. Notwithstanding the foregoing, you may assign your rights in the SOFTWARE PRODUCT to any individual or entity that you merge with or into or that acquires substantially all of your assets or stock.

2. RIGHTS IN SOFTWARE PRODUCT

You acknowledge that the SOFTWARE PRODUCT and any copies, regardless of the form or media in which the original or copies may exist, are the sole and exclusive property of ComponentSpace; by accepting this EULA, you do not become the owner of the SOFTWARE PRODUCT recorded on the media. You further acknowledge that the SOFTWARE PRODUCT, including the code, logic and structure of the SOFTWARE PRODUCT, contain valuable trade secrets belonging to ComponentSpace. You agree to secure and protect the SOFTWARE PRODUCT consistent with the maintenance of ComponentSpace’s rights in the SOFTWARE PRODUCT, as set forth in this EULA.

3. COPYRIGHT

All title and copyrights in and to the SOFTWARE PRODUCT (including but not limited to any images and text incorporated into the SOFTWARE PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PRODUCT are owned by ComponentSpace or its suppliers. The SOFTWARE PRODUCT is protected by copyright laws and international treaty provisions. Therefore, you must treat the SOFTWARE PRODUCT like any other copyrighted material. You may not copy the printed materials, if any, accompanying the SOFTWARE PRODUCT.

4. CREATING APPLICATIONS

You may freely distribute your own applications that use the SOFTWARE PRODUCT as a runtime component ("Applications") without payment to ComponentSpace, if and only if the Applications: (a) contain only the runtime component of the SOFTWARE PRODUCT; and (b) contain no modifications to the SOFTWARE PRODUCT (including alterations to

the original proprietary notices); and (c) do not provide substantially the same functionality as the SOFTWARE PRODUCT or have as one of their purposes to build other software that would compete with the SOFTWARE PRODUCT; and (d) do not reproduce or distribute any portion of the documentation for the SOFTWARE PRODUCT or document the Application in a manner that identifies the programmatic interface to the SOFTWARE PRODUCT; and (e) are subject to a license agreement that (i) limits Application end-users use of the SOFTWARE PRODUCT to a runtime component, (ii) restricts the Application end-user from changing, altering or modifying the SOFTWARE PRODUCT, creating derivative works, translations, reverse assembling, reverse compiling, disassembling, or in any way reverse engineering the SOFTWARE PRODUCT, and (iii) prevents the Application end-user from sublicensing, renting, distributing, leasing or otherwise transferring or assigning any portion of the SOFTWARE PRODUCT other than as specifically permitted in this EULA.

5. EXAMPLE APPLICATIONS

Solely with respect to those portions of the SOFTWARE PRODUCT identified as example code ("Example Code"), ComponentSpace also grants you the right to use and modify the Example Code for the sole purposes of designing, developing, and testing software product(s), and to reproduce and distribute the Example Code, along with any modifications thereof, provided that you agree to: (A) distribute the Example Code only in conjunction with and as a part of a software application product or Web page developed by you that adds significant and primary functionality or design to the Example Code ("Application"); (B) not use ComponentSpace's name, logo, or trademarks to market the Application; (C) include a valid copyright notice on the Application; (D) indemnify, hold harmless, and defend ComponentSpace from and against any claims or lawsuits, including attorney's fees, that arise or result from the use or distribution of the Application; (E) not permit further distribution of the Example Code by your end user.

6. TERM

This EULA shall be perpetual unless you fail to observe any of its terms, in which case it shall terminate immediately, and without additional prior notice, provided, however, that copies of the runtime component of the SOFTWARE PRODUCT that are part of the Applications licensed to third parties may be retained by such licensed third parties in accordance with this EULA. Upon termination or expiration of this EULA, you shall destroy the original and all copies, complete or partial, of the SOFTWARE PRODUCT, and shall not access such media for the purpose of recovering any of the SOFTWARE PRODUCT. The terms of Sections 2, 3, 7, 8, 9, 10, 11, 12, 13 and 14 shall survive termination of this EULA.

7. U.S. GOVERNMENT RESTRICTED RIGHTS

The SOFTWARE PRODUCT and documentation are provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, as applicable. 9. DISCLAIMER OF WARRANTY

THE SOFTWARE PRODUCT IS PROVIDED "AS-IS," WITHOUT WARRANTY OF ANY KIND, AND ANY USE OF THE SOFTWARE PRODUCT IS AT YOUR OWN RISK. To the maximum extent permitted by applicable law, ComponentSpace and its suppliers disclaim all warranties AND CONDITIONS, either express or implied, including, but not limited to, implied warranties AND CONDITIONS of merchantability, fitness for a particular purpose, TITLE, AND NON-INFRINGEMENT, with regard to the SOFTWARE PRODUCT.

10. LIMITATION ON LIABILITY

To the maximum extent permitted by applicable law, in no event shall ComponentSpace or its suppliers be liable for any special, incidental, indirect, or consequential damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or any other pecuniary loss) arising out of the use of or inability to use the SOFTWARE PRODUCT, even if ComponentSpace has been advised of the possibility of such damages. In no event shall ComponentSpaces liability exceed the price paid to ComponentSpace for the SOFTWARE PRODUCT.

11. INDEMNIFICATION

You hereby agree to indemnify ComponentSpace and its officers, directors, employees, agents, and representatives from each and every demand, claim, loss, liability, or damage of any kind, including actual attorneys fees, whether in tort or contract, that it or any of them may incur by reason of, or arising out of, any claim which is made by any third party with respect to any breach or violation of this EULA by you or any claims based on the SOFTWARE PRODUCT included therein.

12. ENTIRE AGREEMENT

YOU ACKNOWLEDGE THAT YOU HAVE READ THIS LICENSE, UNDERSTAND IT, AND AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS. YOU ALSO AGREE THAT THIS LICENSE IS THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN COMPONENTSPACE AND YOU, WHICH SUPERSEDES ANY PROPOSAL, PRIOR AGREEMENT, OR LICENSE, ORAL OR WRITTEN, AND ANY OTHER COMMUNICATIONS RELATING TO THE SUBJECT MATTER OF THIS EULA.

3.1.2 "API" or "Application Programming Interface" refers to a publicly available interface that specifies how an application can make requests for services from libraries and/or software components.

3.1.3 "END USER PRODUCT" refers to a program developed by You using the OFFICE FILE API, into which one or more Redistributables are incorporated, and that includes substantial additional features and capabilities beyond those provided by the OFFICE FILE API itself.

3.1.4 "WEB APPLICATION" refers to a hosted application, made available in the cloud or on-premise.

3.1.5 "WEB ENDPOINT" refers to a WEB APPLICATION through which features of the OFFICE FILE API may be exposed through an API or any other user interface, providing access to unlicensed third parties.

3.2 You may not use the OFFICE FILE API to create, develop, or enable any END USER PRODUCT or WEB APPLICATION that (1) primarily replicates, substantially duplicates, or offers similar functionality as the OFFICE FILE API, including but not limited to processing or converting document types such as DOC, XLS, PDF, or PPT, or (2) exposes features of or makes the OFFICE FILE API available to unlicensed third parties for use or query through an API or a WEB ENDPOINT.

4. SEPARATION OF COMPONENTS.

The SOFTWARE DEVELOPMENT PRODUCT(S) is licensed as a single PRODUCT(S). The SOFTWARE DEVELOPMENT PRODUCT(S) and its constituent parts and any provided redistributables may not be reverse engineered, decompiled, disassembled or separated for use on more than one computer, nor placed for distribution, sale, or resale as individual creations by LICENSEE. The provision of source code, if included with the SOFTWARE DEVELOPMENT PRODUCT(S), does not constitute transfer of any legal rights to such code, and resale or distribution of all or any portion of all source code and intellectual property will be prosecuted to the fullest extent of all applicable local, federal and international laws. All DEVEXPRESS libraries, source code, redistributables and other files remain DEVEXPRESS's exclusive property. You may not distribute any files, except those that DEVEXPRESS has expressly designated as REDISTRIBUTABLE(S).

5. RENTAL.

You may not rent, lease, or lend the SOFTWARE DEVELOPMENT PRODUCT(S).

6. TRANSFER.

You may NOT permanently or temporarily transfer ANY of your rights under this AGREEMENT to any individual or business or government entity without prior written approval from DEVEXPRESS. Regardless of any modifications which you make and regardless of how you might compile, link, and/or package your programs, under no circumstances may the libraries, Redistributables, and/or files included in the SOFTWARE DEVELOPMENT PRODUCT(S) (including any portions thereof) be used for developing programs by anyone other than you. Only you as the LICENSEE have the right to use the libraries, redistributables, or other files of the SOFTWARE DEVELOPMENT PRODUCT(S) (or any portions thereof) for developing programs created with the SOFTWARE DEVELOPMENT PRODUCT(S). You may not share copies of the Redistributables with other co-developers. You may not reproduce or distribute any DEVEXPRESS documentation without the permission of DEVEXPRESS.

7. REDISTRIBUTION.

The SOFTWARE DEVELOPMENT PRODUCT(s) may include certain files ("REDISTRIBUTABLE(s)") intended for distribution by you to the users of software applications which you create. Redistributables include, for example, those files identified in printed or on-line documentation as redistributable files or those files preselected for deployment by an install utility provided with the SOFTWARE DEVELOPMENT PRODUCT(S) (if any). In all circumstances, the REDISTRIBUTABLES for the SOFTWARE DEVELOPMENT PRODUCT(S) are only those files specifically designated as such by DEVEXPRESS.

AT NO TIME MAY LICENSEE CREATE ANY TOOL, REDISTRIBUTABLE, OR PRODUCT THAT DIRECTLY OR INDIRECTLY COMPETES WITH ANY DEVEXPRESS PRODUCT(S), INCLUDING BUT NOT LIMITED TO THE SOFTWARE DEVELOPMENT PRODUCT(S), BY UTILIZING ALL OR ANY PORTION OF THE DEVEXPRESS SOFTWARE DEVELOPMENT PRODUCT(S).

Distribution by the LICENSEE of any design-time tools (EXE's or DLL's), executables, and source code distributed to LICENSEE by DEVEXPRESS as part of this SOFTWARE DEVELOPMENT PRODUCT(S) and not explicitly identified as a redistributable file is strictly prohibited. The LICENSEE shall not develop software applications that provide an application programming interface to the SOFTWARE DEVELOPMENT PRODUCT(S) or the SOFTWARE DEVELOPMENT PRODUCT(S) as modified.

The LICENSEE may NOT distribute the SOFTWARE DEVELOPMENT PRODUCT(S), in any format, to others for development or application compilation purposes.

If you have purchased a 12 month subscription as described in Section 9 of this AGREEMENT, or have obtained a COMPLIMENTARY USE LICENSE as described in Section 1.3 of this AGREEMENT, you may reproduce and distribute copies of the REDISTRIBUTABLES, provided that such copies are made from the original copy of the REDISTRIBUTABLES included with the SOFTWARE DEVELOPMENT PRODUCT(S) or modified versions of the REDISTRIBUTABLES which are provided to you by DEVEXPRESS or those which you create. Copies of REDISTRIBUTABLES may only be distributed with and for the sole purpose of executing application programs permitted under this AGREEMENT that you have created using the SOFTWARE DEVELOPMENT PRODUCT(S).

LICENSEE MAY NOT REDISTRIBUTE any files in the SOFTWARE DEVELOPMENT PRODUCT(S) distribution if using an evaluation, trial, Not for Resale, or demo version of the SOFTWARE DEVELOPMENT PRODUCT(S).

The complete list of REDISTRIBUTABLES under this AGREEMENT is as follows:

DEVEXPRESS licenses the SOFTWARE DEVELOPMENT PRODUCT(S) on a subscription basis. A subscription lasts for a 12 month period from the date of purchase. LICENSEE will be eligible to receive all major and minor updates for the SOFTWARE DEVELOPMENT PRODUCT(S) during this 12 month period. However, its original authors, Stephen Moshier, has kindly granted permission for inclusion in a BSD-licensed package. See email snippet below for reference.

Julien, thank you for writing. BSD license is fine, modification is OK. There are more build scripts available in the web site distributions than there are on the Netlib. I think there is an update to Planck's radiation function that I haven't sent to Netlib yet. But Netlib is a more stable site, so it is better to cite that as a reference.

2/ At the moment, your code is left untouched. However, if I ever need to modify bits of the code, what are the conditions/restrictions? Nothing huge -- I definitely do not want to mess with it: I was planning to use the natural completion of some functions on the completed real line (e.g. CDF returing 1 when called with "infinity", or quantiles returning -Infinity when called with 0), either natively if supported, or by setting a specific flag via mtherr().

3/ I am currently using the source from Netlib. Do you recommend using the source from your website instead ?

Thank you very much for your attention, and, more importantly, for the time and effort your poured into Cephes.

# Introduction

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

```
o We don't promise that this software works. However, we will be
  interested in any kind of bug reports. (`as is' distribution)

o You can  use this software for whatever you  want, in parts or
  full form, without having to pay us. (`royalty-free' usage)

o You may not pretend that  you wrote this software.  If you use
  it, or  only parts of it,  in a program,  you must acknowledge
  somewhere  in  your  documentation  that  you  have  used  the
  FreeType code. (`credits')
```

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

""" Portions of this software are copyright (c) The FreeType Project (freetype.org). All rights reserved. """

Please replace with the value from the FreeType version you actually use.

# Legal Terms

0. Definitions

---

Throughout this license, the terms `package', FreeType Project', and `FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the FreeType Project', be they named as alpha, beta or final release.

`You' refers to the licensee, or person using the project, where using' is a generic term including compiling the project's source code as well as linking it to form a `program' or executable'. This program is referred to as `a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

2. Redistribution

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

```
o Redistribution of  source code  must retain this  license file
  (`FTL.TXT') unaltered; any  additions, deletions or changes to
  the original  files must be clearly  indicated in accompanying
  documentation.   The  copyright   notices  of  the  unaltered,
  original  files must  be  preserved in  all  copies of  source

o Redistribution in binary form must provide a  disclaimer  that

  FreeType Team,  in  the  distribution  documentation.  We also
  encourage you to put an URL to the FreeType web page  in  your
  documentation, though this isn't mandatory.
```

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

3. Advertising

---

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution"shall mean any worko fauthorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, sourcecode control systems, and issue tracking systems that are managedby, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not aContribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide,non-exclusive,no-charge,royalty-free,irrevocablecopyrightlicensetoreproduce,prepareDerivativeWorksof,publiclydisplay, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Objectform.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

   a. You must give any other recipients of the Work or Derivative Works a copy of this License;and

   b. You must cause any modified files to carry prominent notices stating that You changed the files;and

   c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

   d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

   You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

### Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS "Contribution" means:

   a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and

   b) in the case of each subsequent Contributor:

   ```
   i) changes to the Program, and

   ii) additions to the Program;

   where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "orig
   ```

"Contributor" means any person or entity that Distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions Distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

"Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.

"Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of

a) distributing or

b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

   a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.

   b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

   c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

   d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

   e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).

3. REQUIREMENTS 3.1 If a Contributor Distributes the Program in any form, then:

   a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

   b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:

   i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or c

   ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental an

   iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

   iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section

3.2 When the Program is Distributed as Source Code:

a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made availa

b) a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must:

   a) promptly notify the Commercial Contributor in writing of such claim, and

   b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement.

Exhibit A - Form of Secondary Licenses Notice "This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

1. Definitions The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law. A "contribution" is the original software, or any additions or changes to the software. A "contributor" is any person that distributes its contribution under this license. "Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights (A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create. (B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations (A) No Trademark License - This license does not grant you rights to use any contributors' name, logo, or trademarks. (B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically. (C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software. (D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license. (E) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

### Mozilla Public License 2.0

1. Definitions

1.1. "Contributor" means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software.

1.2. "Contributor Version" means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor’s Contribution.

1.3. "Contribution" means Covered Software of a particular Contributor. 1.4. "Covered Software" means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof.

1.5. "Incompatible With Secondary Licenses" means a that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or b that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.

1.6. "Executable Form" means any form of the work other than Source Code Form.

1.7. "Larger Work" means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software. 1.8. "License" means this document.

1.9. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.

1.10. "Modifications" means any of the following: a any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or b any new file in Source Code Form that contains any Covered Software.

1.11. "Patent Claims" of a Contributor means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.

1.12. "Secondary License" means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 2.1, the GNU Affero General Public License, Version 3.0, or any later versions of those licenses.

1.13. "Source Code Form" means the form of the work preferred for making modifications.

1.14. "You" (or "Your") means an individual or a legal entity exercising rights under this License. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants and Conditions

2.1. Grants Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license: a under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and b under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor: a for any code that a Contributor has removed from Covered Software; or b for infringements caused by: (i) Your and any other third party’s modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or c under Patent Claims infringed by Covered Software in the absence of its Contributions. This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients’ rights in the Source Code Form.

3.2. Distribution of Executable Form If You distribute Covered Software in Executable Form then: a such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and b You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients’ rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor

for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis,
